

Instrumentation

3	V. Mikerov	Projection and Scanning Scintillation Detectors for Neutron Imaging – Comparative Analysis
5	A. Stowe	Investigation of a Novel 6LiInSe_2 Detector for Neutron Transmission Imaging
6	Dongfeng Chen	A New Type of Neutron Imaging Scintillator Based on BN/ZnS(Ag)
7	Dongfeng Chen	Analysis of the Inhomogeneous Neutron Beam Distribution Originated from Neutron Guide Transportation and its Effects on Neutron Radiography
14	P. Mikula	Observation of Edge Refraction on a Conventional Neutron Diffractometer Employing Dispersive Double-Crystal Monochromator
19	A.W. Hewat	Inexpensive Neutron Imaging Cameras using CCDs for Astronomy
30	S. Zhu	The Development of Sample Handling Set for Fast Neutron Radiography System
35	K. Thomsen	Influence of Surface Structures on the Coupling of Neutrons with Moderating Material
39	K. Oikawa	6-Year Experiences of Neutron Imaging at NOBORU at J-PARC MLF
40	T. Kim	Neutron dark-field imaging performance test at a polychromatic thermal neutron beamline of HANARO
50	Y. Zou	A bubble chamber as a fast neutron radiography detector
64	Y. Kim	The Double Crystal Monochromator system for Neutron Radiography and Tomography at ENF in HANARO
66	Y. Xiao	The neutron sensitive MCP detector research at CPHS
67	J. Hunter	High Energy Neutron Computed Tomography at LANSCE
74	J. Barton	Selected Energy Neutron Radiography, Origins and Lessons for Low Cost Potential
75	J. Barton	Wave Effect Neutron Radiography, Origins in WCNR and Prospects for Low Cost Systems
88	T. Reimann	A Rotatable Neutron Grating Interferometer as User Instrument at the Antares Beamline – A Status Report
98	E. Perelli Cippo	Neutron Radiography as a Method For Diagnosing Neutron Converters for Advanced Thermal Neutron Detectors
101	A. Miceli	Measurements of Gamma-Ray Background Spectra at Spallation Neutron Source Beamlines
122	M. Morgano	Development of a stable high-performances neutron scintillator for neutron imaging applications
184	D. Jacobson	Using Micro-Channel Plates to Achieve Both High Spatial and Temporal Resolution in Neutron Radiography
195	D. Vavrik	Modular Pixelated Detector System for Neutron Imaging with Micrometric Resolution
197	A. Jakůbek	Large Area Pixel Detector Widepix for Neutron Radiography
198	S. Söllradl	Development and Test of a Neutron Imaging Setup at the PGAA Instrument at FRM II
202	L. Yang	TDI (Time Delay Integration) Digital Camera for Neutron Radiography
208	V. Nagarkar	New Structured Scintillators for Neutron Radiography
