

Workshop on Ultrafast Dynamics in Strongly Correlated Systems

Monday, 4 April 2011

New opportunities with x-ray FELs (09:00 - 10:20)

time	[id] title	presenter
09:00	[37] The SwissFEL X-ray Laser and its Applications in Correlated Electron Materials	ABELA, Rafael
09:40	[15] Resonant soft X-ray scattering system for LCLS experiments and hierarchical temporal scales in laser-induced transient state of nickelate	CHUANG, Yi-De
10:00	[23] The Verwey transition ultrafast: lattice and charge/orbital order go neck and neck	PONTIUS, Niko
