

Workshop on Ultrafast Dynamics in Strongly Correlated Systems

Tuesday, 5 April 2011

Charge density waves I (08:30 - 09:50)

time	[id] title	presenter
08:30	[51] Transient electronic structure and coherent phonon dynamics during photoinduced insulator to metal transitions	WOLF, Martin
09:10	[24] Femtosecond time-resolved photoemission of layered charge-density-wave compounds	ROSSNAGEL, Kai
09:30	[3] Phase rigidity and power law decay for large-amplitude coherent phonons in bismuth	LEBEDEV, Mikhail
