

International Workshop on Radiation Imaging Detectors iWoRID 2011

Thursday, 7 July 2011

Detector Systems II: 5 contributions - HG E7 (10:55 - 12:35)

time	[id] title	presenter
10:55	[242] Characterization of M- π -N CdTe Pixel Detectors Coupled to Hexitec Readout Chip	Dr KALLIOPUSKA, Juha
11:15	[224] Development of a fast read-out system of a single photon counting detector for mammography with synchrotron radiation	Ms LOPEZ, Frances Caroline
11:35	[124] Fast X-ray pixel detectors for synchrotron radiation light sources	Dr CONTARATO, Devis
11:55	[136] Matching detector performance to source profile to optimise detector linearity	Dr SOBOTT, Bryn
12:15	[122] Multi-slice Quantum Computed Tomography System using a MHSP	CARRAMATE, Lara
