

Data Analysis & Modelling group @ ESS

Data analysis core team responsible for providing software to 16 instruments at ESS together with in kind contributors from the member countries

We also provide McStas support

X 1/3

Post doc for 6 months starting Sept. '16

For two years

Technique	Lead partner	
	SINE2020	In kind contrib
Imaging	PSI (+LLB + ESS)	PSI
SANS	ESS	ESS
Reflectometry	FZJ	FZJ
Spectroscopy	ILL / ISIS	FZJ / TBD
Diffraction		ESS Bilbao

Under discussion

Committed to Mantid for data reduction! (Jon Taylor)

Accompliments

- Recruited two developers
- Developed good collaboration with SasView development & management team
- Host build servers for SasView
- Worked on refactoring
- Started to work on GUI
- Started to look into SasFit models
- Started to look into Live Neutron Data Analysis (LiNDA)

Up for discussion

- API
- SasView / SasFit, ESS / PSI
- Imaging -> Markus
