

X-ray and Neutron Phase Imaging with Gratings 2017

Friday, 15 September 2017

Industrial Applications - HG E3 (11:00 - 12:30)

time	[id] title	presenter
11:00	[8] Industrial application of X-ray Talbot-Lau grating interferometry in aeronautics and aerospace	Dr REVOL, Vincent
11:30	[47] Investigations of bulk magnetic domain formations due to laser scribing of electrical steel by neutron dark-field imaging	Mr RAUSCHER, Peter
11:50	[17] Development of high speed and wide FOV X-ray phase scanner	Mr KAGEYAMA, Masashi
12:10	[82] X-ray Dark-Field Imaging of Catalyst layer in Fuel cells	Mr PANDESHWAR, Amogha
