

# X-ray and Neutron Phase Imaging with Gratings 2017

## Wednesday, 13 September 2017

### Instrumentation - 02 - HG E3 (09:00 - 10:30)

time	[id] title	presenter
09:00	[60] Developments in X-ray grating interferometry: directionality, tunability and flux efficiency	Mr KAGIAS, Matias
09:30	[42] Helical X-ray Vector Radiography	Mr SHARMA, Yash
09:50	[34] X-ray phase-contrast imaging and metrology using periodic and random wavefront modulators	Ms ZDORA, Marie-Christine
10:10	[41] A multi-aperture analyser for planar and three-dimensional X- ray phase-contrast imaging with edge illumination	Dr MARCO, Endrizzi
