

Tuesday 6 December 2016 :: 9h30 :: Paul Scherrer Institut, SwissFEL building

Invitation to the SwissFEL Users' Kick-off Meeting

PSI is very happy and proud to announce the SwissFEL Users' Kick-off Meeting on December 6th 2016.

During this Users' Kick-off Meeting the focus will be on the beginning of SwissFEL user operation. We want to present the planning of the first years of operation and discuss the primal experiments as well as further developments with you.

At the meeting the functionality of the experimental stations of the SwissFEL hard X-ray beamline, ARAMIS, will be explained by the beamline scientists. Furthermore experienced FEL scientists will show the future possibilities for experiments and science.

The Users' Kick-off Meeting will be held at the SwissFEL facility, starting at 9:30 h in the morning and ending with a tour of the new facility until 15:00h.

Program

09:30	Welcome	Gabriel Aeppli
09:35	Presentation of the SwissFEL project and user opportunities	Rafael Abela
09:55	Experimental station A	Christopher Milne
10:15	Experimental station B	Henrik Lemke
10:35	Experimental station C	Bill Pedrini
10:55	Coffee break	
11:30	New opportunities for life science at FELs	John Spence
12:00	Ultrafast chemical dynamics with optical and X-ray pulses	Majed Chergui
12:30	Femtosecond dynamics in correlated electron systems: an X-ray view	Steven Johnson
13:00	Apéro riche	
14:00	SwissFEL tour	
15:00	End of meeting and end of tour
