May 9-12, 2012

Second Announcement and Call for Abstracts

XXXVIII European Cyclotron Progress Meeting
Paul Scherrer Institut
Villigen, Switzerland

Dear Colleagues

With this second announcement we would like to remind you about the forthcoming European Cyclotron Progress Meeting (ECPM), May 9-12 in Villigen, Switzerland. Very soon, on December 1, we will open registration and abstract submission on our updated website: <http://www.psi.ch/ecpm2012>. Please submit your title, authors, abstract and indicate whether you would like to present your contribution as a poster or a talk. The possibility to submit abstracts will close on March 9, 2012. A list of important dates can be found on the website.

After the positive experience from Groningen we organize an educational session, before the actual workshop begins. The one day [program](#) of the session is available on our website. Please advertise this option actively to students and colleagues at your institute. The educational session can be held only with sufficient participation. Interested students should register via email to ecpm2012@psi.ch before January 16 to allow us to estimate the participation in this session.

During the meeting we will organize a tour to the PSI accelerator facilities for the workshop participants. At the end of the workshop, on Saturday afternoon, we offer an excursion to Lucerne including a guided tour through this unique picturesque city of Switzerland.

On behalf of the ECPM-2012 organizational committee,
Mike Seidel.
