

# MC-PAD training event on CV writing and interview skills

**Tuesday, November 8, 2011 - Thursday, November 10, 2011**

**PSI**

## **Scientific Program**

This training event is meant as a complementary training to enhance the MC-PAD researchers soft skills.

## **CV writing and interview skills**

Main part of the training event is the 2 day course on Wednesday and Thursday in CV writing and interview skills given by Andrea Kennedy and Jackie Smith from the company iOpener, Oxford.

## **Spinn-off fields of particle physics**

To give the MC-PAD researchers an idea of possible working fields outside particle physics it is planned to visit two PSI facilities for more applied research: The synchrotron light source (SLS) and the proton therapy facility for cancer treatment.

In addition it is planned to have a talk given by a former particle physicist now running a company.
