

A Tale of Cattle and Pets

Thursday, October 6, 2022 1:45 PM (30 minutes)

Given the HPC community at the University of Lausanne is highly heterogenous, some users perfectly fit the regular HPC environments while others need some helpers. This talk presents the journey of a new HPC user at UNIL, from the introductory courses, through the computing facility offers, and the craft of customization for specific needs.

Presenter: JEANVOINE, Emmanuel (University of Lausanne)
