

# Amyloid proteins meet physics: from X-rays and neutrons over electrons to magnetism

Contribution ID: 8

Type: **not specified**

## Alanine switches protein crystal formation to amyloid fibril formation

*Monday, September 5, 2022 11:20 AM (20 minutes)*

**Presenter:** STERNKE-HOFFMANN, Rebecca (PSI, BIO Department)

**Session Classification:** Visualising amyloid deposits by X-rays and electrons
