

56th SSRMP Annual Meeting

Thursday, 30 November 2023

Session I: Nuclear Medicine, Radiation Protection & Radiobiology - Konferenzsaal Coronado (10:40 - 11:40)

time	[id] title	presenter
10:40	[28] Medical physics support for protocol optimization in PET and SPECT : a survey	MEDICI, Siria
10:50	[37] Quantitative accuracy of Y-90-microspheres vial activities, results from PET experiments and Monte Carlo simulations	GNESIN, Silvano
11:00	[39] Impact of reconstruction parameters in Luthetium-177 dosimetry	GRAVINATTI, Milena Cristina
11:10	[6] Initial experience with dedicated eye lens dosimetry in interventional radiology	CESTER, Davide
11:20	[3] Assessment of radiation dose values for fluoroscopy examinations in the operating theatre	GENETAY, Tristan
11:30	[27] Microbeam radiation therapy: the next generation GRID-RT	TRAPPETTI, Verdiana
