

High Pressure Workshop

Wednesday, 22 November 2023

Afternoon Session 1: Contributed Talks - Auditorium (WHGA) (13:00 - 14:30)

time	[id] title	presenter
13:15	[9] THz control of quantum materials under pressure	ABREU, Elsa
13:30	[15] Pressure tuning and Evolution of Structural, Magnetic and Electronic Properties in TMPX3 van-der-Waals Compounds	DENG, Shiyu
13:45	[5] Giant pressure-enhancement of multiferroicity in CuBr ₂	Dr NORMAND, Bruce
14:00	[13] Mobile interfaces in tubes revealed for three-phase systems containing pressurized methane, p-xylene, and water using neutron imaging	VOPIČKA, Ondrej
14:15	[19] Resolving spin reorientation of CrCl ₃ induced by high-pressure with MuSR and neutron diffraction	GE, Yuqing
