Subjects for discussion

- Extraction of low energy particles from strong magnetic fields
    - Possible reacceleration schemes
        - Injection of muon beam into strong magnetic field

- Particle Tracking

- Beam monitor/ profile using scintillating fibers

- Electronics and DAQ
    - Readout parallel, serial developing common electronics
    - -> Hands-on Workshop for MIDAS and WaveDream DRS4....
    - High resolution future? DRS5? Requirement of use case at PSI
