

Welcome

LTP(izza)hD 09/2023

Tim (Muon Physics) & Sophie (Theory)

26.09.2023

general idea of this seminar series

- once per month (not in Dec, not in Jul/Aug)
- two kinds of events, alternating
 - 'normal' LTPhD
 - in the afternoon
 - coffee, tea and Guetzli
 - ~ one 'talk'
 - LTP(izza)hD
 - in the evening
 - pizza and soft drinks
(bring your own beer, ...)
 - ~ two 'talks'

- explain **basic principles** and **motivation**
 - What's the big picture? Bring people along!
 - Why is that interesting? What is the idea behind your research?
 - What are the biggest difficulties? What are you working on?
 - please, **no** complicated stuff, **no** conference talks
- you have a **general audience** – exchange between experiment and theory
 - Theorists, where/how can your calculation be applied to the real world?
 - Experimentalists, what observable can your experiment measure?
- this is **not a usual seminar**
slides, whiteboard, hands-on (eg. lab tour, demonstration) – everything welcome!

all events are listed at indico.psi.ch/category/402

Oct 31	coffee	Guglielmo (Theory) & Stella (Muon Physics)
Nov 28	pizza	Efrain (UCN Physics) & Òscar (Theory)
Jan ??	coffee	tbc
...

please subscribe to our mailing list (→ [indico](https://indico.psi.ch)) and contact us in case of questions

timothy.hume@psi.ch

sophie.kollatzsch@psi.ch

- **Klaus Kirch, Anita Van Loon** & all LTP for (financial) support
- **Yannick Ulrich** for encouragement to organise a seminar
- **Òscar Lara Crosas** for creativity in invention of the name and the pizza concept
- all **participants and future speakers** for their time and effort
