Session Program

30 September 2025 to 1 October 2025

PSI-RAL-Meeting

Project overviews: Technology Session 2 and Discussion

PSI West

Tuesday 30 September

15:45

Project overviews: Technology Session 2 and Discussion: Project 6: Neutron scientific software
Session | **Location:** PSI West

15:45–15:49

Andy Bridger - 6a - Maintainable and extendable Bragg edge transmission and texture diffraction software

15:49–15:53

Jase Tennyson Taylor – 6b - SASfit: Maintainable and extendable library for small angle scattering

15:53–15:57 **Lucas Wilkins– 6c - pySpinW - Linear spin wave theory for python**

16:00

16:00

Project overviews: Technology Session 2 and Discussion: Project 9: Accelerator code development
Session | **Location:** PSI West

16:15

16:15

Project overviews: Technology Session 2 and Discussion: Project 13: Sample delivery for x-ray structural biology
Session | **Location:** PSI West

16:30

16:30

Project overviews: Technology Session 2 and Discussion: PDRA cohort – activity update
Session | **Location:** PSI West

16:45

16:45

Project overviews: Technology Session 2 and Discussion: General discussion
Session | **Location:** PSI West

17:45
