

Travel from Baden to PSI

1 General

In Switzerland public transport is organized so that one ticket is valid for the whole journey (i.e. you do not have to buy one ticket for the bus and another for the train if you are travelling with both).

For travels within the Canton Aargau the ticket price depends on the number of zones you cross. **From Baden to the PSI West via Turgi you need a ticket for [3 zones](#).**

2 Buying tickets

Public transport tickets are sold

- [Online](#)
- At the counter of any railway station
- At the vending machines at the stations. (The machines accept coins and bank notes (CHF or EUR, albeit the change is not the best) and cards. You can also select the language).

We recommend buying one of the following tickets

- Day pass for 3 zones (= return ticket) CHF 12
- Single ticket for 3 zones (valid for 1 hour only!) CHF 6
- Multiple ticket CHF 30 (= 6 journeys, no matter if Baden to PSI West or vice versa). This ticket type must be stamped **before** each trip at one of the orange boxes at the railway stations or at the machines in the bus or at the bus stops.
Several people can share a multiple ticket (each person one stamp per trip).
IMPORTANT NOTE: on the vending machine menu, at a certain point, you have to choose between 'Adult' and '1/2'. You choose 'Adult'.

3 From the hostel

The train station is within walking distance from the Baden youth hostel (see map 1 below, 15 minutes). You can also take one of the buses 1 or 7 but you are probably quicker on foot.

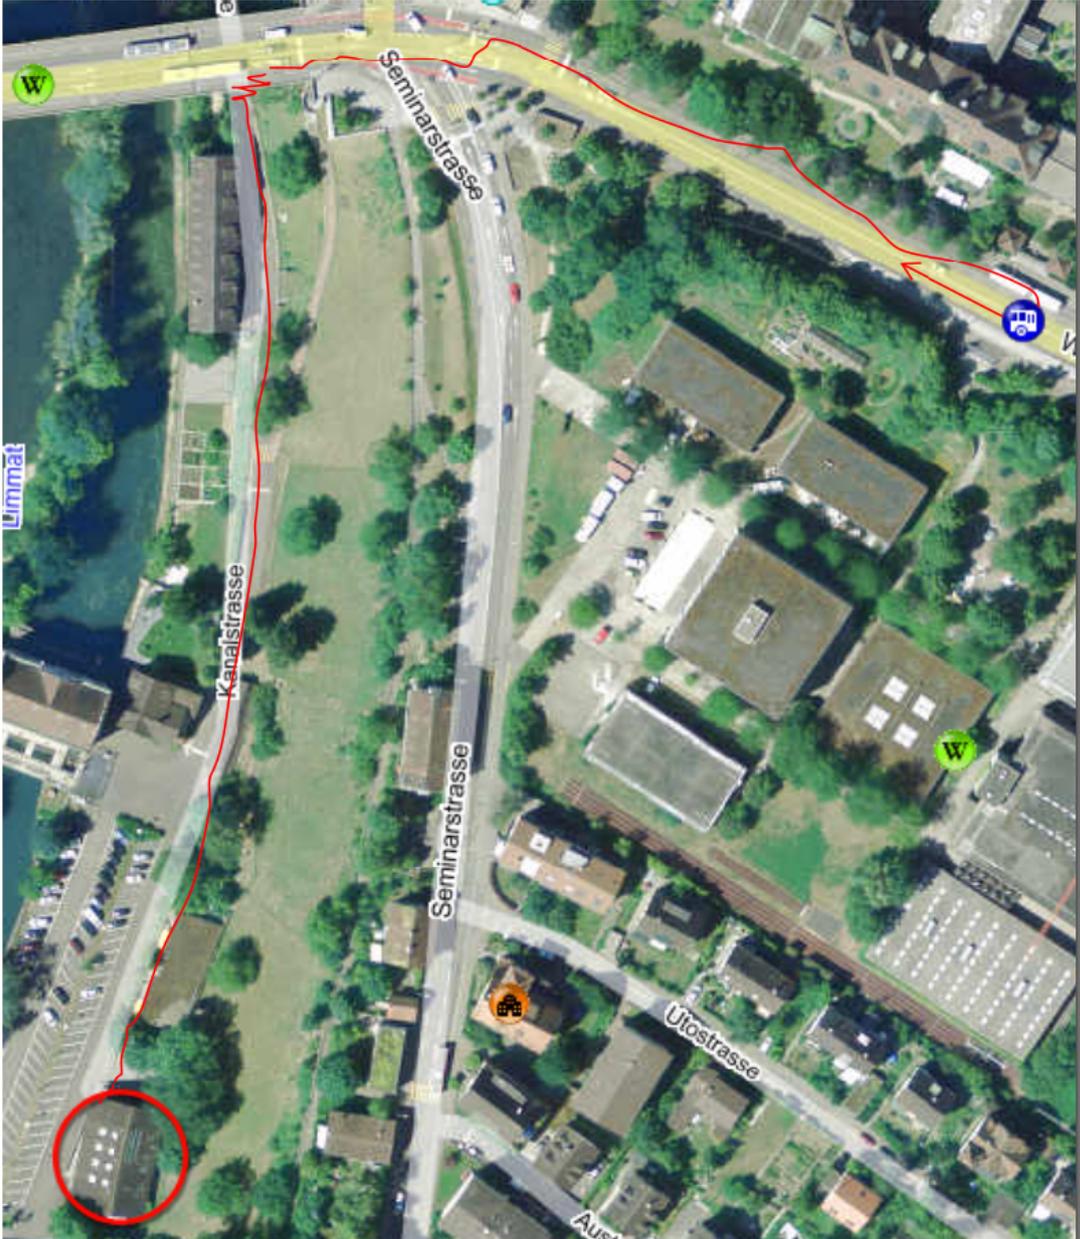

The bus ride is included in your ticket to PSI West or vice versa, i.e. you do not have to buy an extra ticket for the bus (see # 1).

The bus stop closest to the hostel is 'KANTONSSCHULE' (see map 2 below).

The railway station is served by two bus stops (BADEN BAHNHOF WEST and BADEN BAHNHOF OST) on either side of the station. Buses from the hostel to the railway station arrive at the WEST; buses from the railway station to the hostel leave from the OST.

Trains for Siggenthal-Würenlingen leave from platform 4. [See time tables](#).
