Session |**Location:** Fachhochschule Nordwestschweiz Brugg / Windisch, B6.-1D13, Bahnhofstrasse 6 5210 Windisch

11:10-11:15

What is the experience with parallel operations and crosstalk in an increasing complex beamtime world (limitations, improvements)?

11:15-11:20

Where should we find the balance between stability and creativity? What are performance stability priorities?

11:20-11:25

Do we need more single pulse properties and diagnostics, faster feedback and more information?

11:25-11:30

Is our data analysis / online feedback fast enough? Do we have more needs for real-time analysis? What are acceptable delays and needs?
