

CALIPSO status and next steps

Thursday 19 September 2013 17:50 (30 minutes)

After signature of the Grant Agreement, CALIPSO (www.calipso.wayforlight.eu) project is running towards its first milestones. The wayforlight portal will develop into a single entry point for European users, starting with the publication of standardized beamline datasheets for all European facilities. Forthcoming issues are the implementation of some Umbrella (www.umbrellaid.org) tools, pilot access procedures and a roadmap towards a standardized proposal format.

ESUO continuous feedback and cooperation are crucial for the benefit of European users and for the overall project success.

Author: Dr BLASETTI, Cecilia (Elettra - Sincrotrone Trieste)

Co-authors: Dr PAOLUCCI, Giorgio (Elettra - Sincrotrone Trieste); Dr BERTOLO, Michele (Elettra - Sincrotrone Trieste)

Presenter: Dr BLASETTI, Cecilia (Elettra - Sincrotrone Trieste)

Session Classification: ESUO Annual Meeting
