

## combined session of:

3<sup>rd</sup> Workshop on the  
**Physics of fundamental  
Symmetries and Interactions**

and

2<sup>nd</sup> CHIPP Workshop on  
**Detector R&D**

→ warm welcome to members of CHIPP and invited speakers

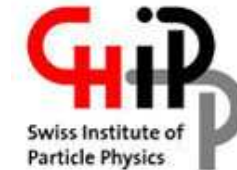

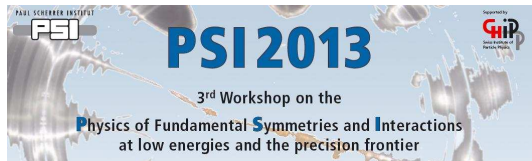

- topics:
- 16:30 – 17:00: [Tilman Rohe](#)  
Silicon tracking detectors in particle physics
  - 17:00 – 17:30: [Ivan Peric](#)  
High voltage CMOS technology
  - 17:30 – 18:00: [Yuri Musienko](#)  
SiPM – status and prospects
  - 18:00 – 18:30: [Stefan Ritt](#)  
Waveform digitizing in the Giga-sample range with switched capacitor arrays
