The DCH-RP project: requirements and implementations of federated access to digital cultural heritage contents

Thursday 21 March 2013 11:15 (15 minutes)

First the presentation gives an overview on the DCH-RP, a project concerning the preservation of Digital Cultural Heritage. Then the requirements on federated access coming from the cultural heritage community will be presented. Last we will show the eCulture Science Gateway as a tool to satisfy the community requirements.
