

Umbrella Status Update

Björn Abt

New DNS Name

- Finally we have an independent DNS name:

umbrellaid.org

- This name has been implemented on the new live system.
- DNS and SSL certificates kindly provided by ILL

New Server

- New dedicated IdP server
- First instance hosted at PSI
- Planned to be clustered (with DESY and ILL)

New Testsystem

- Is viable for testing new developments before going online
- „Old“ Umbrella server is used as test system
- Hosted at PSI
- Can also be used for test installations of service providers

Updates Website:

- Slightly new structure
- New texts

The screenshot shows the 'umbrella' website navigation menu. The 'About the Umbrella' dropdown menu is open, listing the following items:

- What is Umbrella (for users)
- What is Umbrella (for IT experts)
- What is it good for?
- How can I use it?
- What has happened up to now?
- What is the present status?
- What will be the future? What is the roadmap?
- Documents
- Presentation
- Background information

Other visible navigation items include: Help, About us, Services, User Offices, ACTIONS, Create Account, Contact, and Login. The main content area shows a section titled 'TO THE UMBRELLA.' with text about the Pan-European Identity System for Users of the European Photon / Neutron Facilities and IT platform.

Live Systems:

- ESRF SMIS installed
- ILL CAS installed
- PSI DUO almost installed

Embedable Widgets:

- Login
- Create Account
- Update Account

Embed via IFRAME

Controllable via GET variable:

- Set the GET attribute `stripped=true`
