

ISIS Umbrella Status Update

26th June 2013

tom.griffin@stfc.ac.uk

marcus.noble@stfc.ac.uk

Science & Technology Facilities Council

ISIS

Status

- Done
 - Effort recruited
 - Shibboleth configured in IIS
 - Basic ‘log on’ via Umbrella working (test)
- To-do
 - Modify the user office system to use it
 - No affiliation database (initially)
 - Silent roll-out
 - Communication plan

Some questions...

- Will Umbrella provide a logout function?
- Will there be an imposed session expiration
- Who will manage/maintain once PaNdata has finished?
- What is the use of sending EAAHash and EAAKey?
- What is Token?

Some questions...
