

Photon Tools for Physical Chemistry 2014

Wednesday, 1 October 2014

Session 5 Astrochemistry (Nahon) (10:30 - 12:15)

time	[id] title	presenter
10:30	Coffee	
11:00	[7] Chiral photons as trigger of life's asymmetry?	Dr MEINERT, Cornelia
11:25	[2] Photon Induced Desorption of interstellar relevant ices in the VUV	Prof. FILLION, Jean-Hugues
11:50	[28] Structure and energetics of PAH clusters of interstellar relevance	Dr JOBLIN, Christine

Session 5 Astrochemistry (Nahon) (14:00 - 14:50)

time	[id] title	presenter
14:00	[19] Electronic Spectra of Organic Radicals and Ions of Relevance to Combustion and Interstellar Space	Prof. MAIER, John
14:25	[10] Exploring the Ion Chemistry of Small Polycyclic Aromatic Hydrocarbons with Coincidence Spectroscopy	Prof. MAYER, Paul
