

# International Workshop on Radiation Imaging Detectors iWoRID 2011

## Thursday, 7 July 2011

### Applications III: 4 contributions - HG E7 (08:30 - 10:25)

-Conveners: Sture Petersson

time	[id] title	presenter
08:30	[220] Phase sensitive mammographic imaging at the SYRMEP beamline	Prof. LONGO, Renata
09:05	[160] A Fast Neutron Scintillation Detector in Homeland Security Applications	Dr DAVATZ, Giovanna
09:25	[121] Detection of explosive materials with Gamma Resonant Nuclear Absorption and Argon-Nitrogen TPC	Dr KRESLO, Igor
09:45	[205] An electronic detector to replace film for Electron Cryomicroscopy?	Dr FARUQI, Wasi
10:05	[123] Direct detection, high frame rate, radiation-hard CMOS monolithic pixels for high resolution Transmission Electron Microscopy	CONTARATO, Devis
