

International Workshop on Radiation Imaging Detectors iWoRID 2011

Monday, 4 July 2011

Sensor Materials, Device Processing & Technologies I: 4 contributions - HG E7 (10:35 - 12:30)

-Conveners: Cinzia Da Via

time	[id] title	presenter
10:35	[94] State of the art neutron detection, ³ He problem and solutions	Dr ZEITELHACK, Karl
11:10	[145] Edgeless planar semiconductor sensors for a Medipix3-based digital radiography detector	Mr BOSMA, Marten
11:30	[115] Recent Results of VTT's Edgeless Detector Prototypes	WU, Xiaopeng
11:50	[206] Slim edges in double-sided silicon 3D detectors	Mr POVOLI, Marco
12:10	[163] Methods for the characterization of the long-term behaviour of X-ray detectors	Mr REISINGER, Stefan
