

# International Workshop on Radiation Imaging Detectors iWoRID 2011

## Monday, July 4, 2011

**Sensor Materials, Device Processing & Technologies I: 4 contributions - HG E7 (10:35 AM - 12:30 PM)**

-Conveners: Cinzia Da Via

time	[id] title	presenter
10:35 AM	[94] State of the art neutron detection, $^3\text{He}$ problem and solutions	Dr ZEITELHACK, Karl
11:10 AM	[145] Edgeless planar semiconductor sensors for a Medipix3-based digital radiography detector	Mr BOSMA, Marten
11:30 AM	[115] Recent Results of VTT's Edgeless Detector Prototypes	WU, Xiaopeng
11:50 AM	[206] Slim edges in double-sided silicon 3D detectors	Mr POVOLI, Marco
12:10 PM	[163] Methods for the characterization of the long-term behaviour of X-ray detectors	Mr REISINGER, Stefan
