

# International Workshop on Radiation Imaging Detectors iWoRID 2011

## Tuesday, 5 July 2011

**Imaging: 3 contributions** - HG E7 (14:00 - 15:15)

-Conveners: Seppo Nenonen

time	[id] title	presenter
14:00	[143] Femtosecond X-ray Imaging using Free Electron Lasers	Dr BARTY, Anton
14:35	[128] Equalization of Medipix2 imaging detector energy thresholds using measurement of polychromatic X-ray beam attenuation	Dr UHER, Josef
14:55	[117] Phase contrast imaging of lightweight objects using microfocus X-ray source and high resolution CCD camera	Mr ZDENKO, Zaprazny
