

HOTLAB-2014

Sunday, September 21, 2014 - Thursday, September 25, 2014

Scientific Program

Program

Registration and reception will be held in the evening of Sunday 21st September

The meeting (four sessions) will take place in Baden about 10 km from Paul Scherrer Institute (PSI) on 22nd , 23rd and 24th of September.

A visit of the hot laboratory and other large facilities at PSI (light source, spallation source) will be organised on September 25th. The visit on Thursday September 25th will end mid-afternoon. Admittance to PSI facilities request registration.

PIE

Post Irradiation Experiment in a HOTLAB

Fuel Production Facilities

Actual infrastructure for the production of fuel and special needs in near future

Remote Handling

Modern Tools for the Handling, characterization and Analysis of radioactive materials in a HOTLAB

Administration Tools

Presentation of essential administrative tools for the Management of a HOTLAB like Software for the Material and fuel accounting or QM Management systems
