

MIDAS Seminar

The image shows a screenshot of a software interface with a table of logging channels. The table has columns for Channel, Events, Progress, MB written, File Name, Compression, and Status. The first channel is 'LED' with 1 event and 100% progress. The second channel is 'Beamline' with 2 events and 100% progress. Below the table, there is a section for 'Logging Channels' with a highlighted row for 'Channel: /run225900.mid.bz2', 'Events: 194', 'Progress: 46%', 'MB written: 394.090', 'File Name: /run225900.mid.bz2', 'Compression: 76%', and 'Status: OK'. Below this, there is a section for 'Lazy Destination' with 'icmeg05'.

Channel	Events	Progress	MB written	File Name	Compression	Status
LED	1	100%	394.090	/run225900.mid.bz2	76%	OK
Beamline	2	100%				OK

Logging Channels

Channel	Events	Progress	MB written	File Name	Compression	Status
/run225900.mid.bz2	194	46%	394.090	/run225900.mid.bz2	76%	OK

Lazy Destination
icmeg05
