

# PhD Seminar 2015

## Wednesday, 26 August 2015

### Session 4 - WHGA/001 (15:45 - 17:15)

time	[id] title	presenter
15:45	[16] A precise beam dynamics model for the beam transport line within the Gantry 3 project	RIZZOGLIO, Valeria
16:00	[17] SAFIR: Towards a high-rate capable PET insert for multimodal dynamic imaging	FISCHER, Jannis
16:15	[18] Studies of neutron transport and extraction at the PSI source for Ultracold Neutrons	RIES, Dieter
16:30	[19] News on the mercury magnetometer for the nEDM experiment at PSI	KOMPOSCH, Sybille
16:45	[20] Active stabilization of a magnetic field for the nEDM experiment	RAWLIK, Michal
