

# SCCER Summer School - Energy Storage in Batteries: Materials, Systems, and Manufacturing

Energy Storage in Batteries: Materials, Systems, and Manufacturing  
SCCER Summer School 11-15 July 2016 Möschberg, Switzerland

Contribution ID: 16

Type: **not specified**

## Batteries in Public Transportation

*Friday, 15 July 2016 08:30 (1h 45m)*

Battery life time is the major cost driver of e-mobility solutions today. By choosing the right battery size together with the right charging strategy, the optimum for the application can be found. But variations in the application parameters often define a different optimum in battery size in the eyes of the customers.

**Presenter:** Mr KÖBEL, Christian (Director Product Management Primove - Bombardier Transportation)
