

Session Program

3 October 2016

Workshop on an accelerator based source for nonlinear THz science @ SwissFEL

Session 2: Static control

Fachhochschule Nordwestschweiz, Campus Brugg Windisch, 5.0B15/16

Monday 3 October

11:00

Session 2: Static control

Session | **Location:** Fachhochschule Nordwestschweiz, Campus Brugg Windisch, 5.0B15/16 | **Convener:** Gabriel Aeppli

11:00-11:35

Interfacial control of magnetism in (111) LaMnO₃/LaNiO₃ superlattices

Speaker

Prof. Jean-Marc Triscone

11:35-12:10

Epitaxial Engineering of Ferroic Layers to Create a Room-Temperature Magnetoelectric Multiferroic

Speaker

Darrell Schlom

12:10-12:30

Lattice control of multiferroic properties in RMnO₃ orthomanganites

Speaker

Yoav William Windsor

12:30
