

Contribution ID: 52

Type: **Poster**

## **A study of phase-grating shapes to improve spatial resolution in X-ray Talbot interferometry**

*Wednesday 13 September 2017 12:30 (2 hours)*

**Author:** Dr IKEMATSU, Katsumasa (Institute of Multidisciplinary Research for Advanced Materials (IMRAM), Tohoku University)

**Co-authors:** Prof. MOMOSE, ATSUSHI (Institute of Multidisciplinary Research for Advanced Materials (IMRAM), Tohoku University); Dr MOHR, Jürgen (Institute of Microstructure Technology, Karlsruhe Institute of Technology); Dr MEYER, Pascal (Institute of Microstructure Technology, Karlsruhe Institute of Technology); Mr MAMYRBAYEV, Talgat (Institute of Microstructure Technology, Karlsruhe Institute of Technology)

**Presenter:** Dr IKEMATSU, Katsumasa (Institute of Multidisciplinary Research for Advanced Materials (IMRAM), Tohoku University)

**Session Classification:** Lunch break & Poster session

**Track Classification:** Instrumentation
