Imaging water transport in cement-based materials with gratings: multi-contrast modalities from synchrotron radiation to laboratory-scale

Tuesday 12 September 2017 16:00 (20 minutes)

Author: Ms YANG, Fei (Institute for Biomedical Engineering, Swiss Federal Institute of Technology Zurich (ETHZ), Zürich, Switzerland and X-ray Tomography Group, Paul Scherrer Institut (previous: Swiss Federal Laboratories for Materials Science and Technology (Empa), ETH Domain, Dübendorf, Switzerland and Institute for Building Materials, Swiss Federal Institute of Technology Zurich (ETHZ), Zürich, Switzerland))

Co-authors: Mr HIPPEL, Alexander (Helmholtz-Zentrum Geesthacht, Geesthacht, Germany); Dr BECKMANN, Felix (Helmholtz-Zentrum Geesthacht, Geesthacht, Germany); Prof. PFEIFFER, Franz (Lehrstuhl für Biomedizinische Physik, Physik-Department und Institut für Medizintechnik, Technische Universität München, Garching, Germany and Institut für diagnostische und interventionelle Radiologie, Klinikum rechts der Isar, Technische Universität München, Garching, Germany); Dr PRADÉ, Friedrich (Lehrstuhl für Biomedizinische Physik, Physik-Department und Munich School of Bioengineering, Technische Universität München, Garching, Germany); Dr DERLUYN, Hannelore (Univ Pau & Pays Adour, CNRS, TOTAL, LFCR-IPRA, UMR5150, 64000, Pau, France (previous: UGCT/PProGress, Dept. of Geology, Ghent University, Ghent, Belgium)); Dr HERZEN, Julia (Lehrstuhl für Biomedizinische Physik, Physik-Department und Munich School of Bioengineering, Technische Universität München, Garching, Germany); Dr BOONE, Matthieu N. (UGCT/Dept. of Physics and Astronomy, Ghent University, Ghent, Belgium); Dr GRIFFA, Michele (EMPA, Swiss Federal Laboratories for Materials Science and Technology); Prof. MOONEN, Peter (Univ Pau & Pays Adour, CNRS, TOTAL, LFCR-IPRA, UMR 5150, 64000, Pau, France and Univ Pau & Pays Adour, CNRS, DMEX-IPRA, UMS 3360, 64000, Pau, France); Prof. LURA, Pietro (Swiss Federal Laboratories for Materials Science and Technology (Empa), ETH Domain, Dübendorf, Switzerland and Institute for Building Materials, Swiss Federal Institute of Technology Zurich (ETHZ), Zürich, Switzerland); Dr KAUFMANN, Rolf (Swiss Federal Laboratories for Materials Science and Technology (Empa), ETH Domain, Dübendorf, Switzerland)

Presenter: Ms YANG, Fei (Institute for Biomedical Engineering, Swiss Federal Institute of Technology Zurich (ETHZ), Zürich, Switzerland and X-ray Tomography Group, Paul Scherrer Institut (previous: Swiss Federal Laboratories for Materials Science and Technology (Empa), ETH Domain, Dübendorf, Switzerland and Institute for Building Materials, Swiss Federal Institute of Technology Zurich (ETHZ), Zürich, Switzerland))
