Instruction to open XMCD- and SM-files

The calculation file is available in XMCD and SM. XMCD refers to Mathcad and SM to SMath.

SMath is a free accessible, Mathcad-like software (for the engineer colleagues, who don´t own a Mathcad license). The calculation file (see appendix) is written with SMath Studio Desktop 64-bit (Version 0.99).

Software download:

https://en.smath.info/view/SMathStudio/summary

If required SMath Studio Extensions (*):

https://smath.info/?extensions=SMathStudio_Desktop
