Type: Oral

## **Bragg Edge imaging for the visualization of engineered residual stresses in additive manufacturing obtained through Laser Shock Peening**

*Monday, 27 May 2019 16:15 (15 minutes)*

**Primary author:** MORGANO, Manuel (Paul Scherrer Institut)

**Co-authors:** Dr KALENTICS, Nikola (Ecole Polytechnique Federale de Lausanne); CARMINATI, Chiara (PSI); SHI-NOHARA, Takenao (Japan Atomic Energy Agency); WORACEK, Robin (University of Tennessee & Helmholtz Zentrum Berlin); MAIMAITIYILI, Tuerdi (Paul Scherrer Institut); MAKOWSKA, Malgorzata (Technical University of Denmark); Prof. LOGE, Roland (Ecole Polytechnique Federale de Lausanne); Dr STROBL, Markus (ES-S-AB)

**Presenter:** MORGANO, Manuel (Paul Scherrer Institut)

**Session Classification:** Applied Bragg edge imaging

**Track Classification:** Applications
