

2nd RULε Topical Workshop on Injection and Injection Systems

Monday, 1 April 2019

Present Machines: Present Machines - Auditorium (09:00 - 12:45)

-Conveners: Andreas Streun; Olaf Dressler

time	[id] title	presenter
09:00	[12] Welcome and introduction	BOEGE, Michael
09:15	[9] Mastering challenges of the injection into low emittance rings - current status and future trends	KUSKE, Peter
09:45	[10] Transparent injection with a pulsed sextupole magnet at the KEK PF-ring	MITSUDA, Chikaori
10:15	[11] Suppression of stored-beam oscillations and improvements during top-up injection at PLS-II	SHIN, Seunghwan
10:45	Coffee Break	
11:15	[13] Design of a multipole kicker injection scheme for MAX IV	LEEMANN, Simon C.
11:45	[14] Development and operation of a multipole injection kicker for SOLEIL and MAX IV	ALEXANDRE, Patrick
12:15	[15] Experience with multipole injection at MAX IV	ANDERSSON, Åke
