

Session Program

17-19 Feb 2020

**Kick-off workshop for the search of a muon
EDM using the frozen spin technique at PSI**

EDM in storage rings

Monday 17 February

14:00

EDM in storage rings

Session | **Location:** WHGA 001 | **Convener:** Klaus Stefan Kirch

14:00–14:20 **Electric dipole moment searches using storage rings (Part I)**

Speakers

Dr Frank Rathmann, Dr Alexander Nass

14:20–14:40 **Electric dipole moment searches using storage rings (Part II)**

Speakers

Dr Frank Rathmann, Dr Alexander Nass

14:40–15:00 **First result from beam tests at PSI**

Speaker

Mikio Sakurai

15:00

Tuesday 18 February

09:00

EDM in storage rings: Muon EDM in JPARC and at FNAL

Session | Location: WBGB 019 | Convener: Angela Papa

09:00–09:40 **The muon EDM measurement at Fermilab**

Speaker
Joe Price

09:50–10:30 **Status of muon EDM experiment at J-PARC**

Speaker
Dr Tsutomu Mibe

10:30

11:00

EDM in storage rings

Session | Location: WBGB 019

11:00–11:40 **Search for EDM of unstable particles at the LHCb**

Speaker
Dr Nicola Neri

11:40
